

Begin Your Career in Healthcare Today!

Get the **Skills** You Need to Enter the Healthcare Workforce, and the **Support** You Need to Advance Your Education and Career

Start out as a Certified Nursing Assistant (CNA):

- ✓ Provide basic care services and emotional support to patients
- ✓ Provide information on patient conditions to nurses
- ✓ Be a vital part of the daily operations of a healthcare setting
- ✓ Learn about career pathways in the healthcare field

Find out if this is right for you!

- ✓ Receive an assessment of your work skills
- ✓ Participate in a hands-on “Simulated Medical Encounter”
- ✓ Hear from employers and people working in the field

Successful candidates will receive **CNA training**, an **opportunity for employment**, access to **ongoing education** and **career coaching** while working as a CNA. These supports could lead to additional certifications, a college degree and a career in nursing.

Eligibility: High School Diploma or GED ◇ Pass Minimum Entrance Test ◇ Pass a CORI/SORI ◇ Meet Income-Eligibility Standards ◇ Able to Physically Perform Role of CNA ◇ Up to Date Immunizations, including TB
