

CAREERPOINT

What is CareerPoint? What does it mean?
It's more than a building of brick and steel
It's more than a name on a sign by the street
It's caring, loving people who make it real

CareerPoint is more than the sum of its parts
Computers, and counseling, workshops and then
Professionals from various fields practice their arts
To assist the unemployed become productive again.

CareerPoint means help and hope, also a friend
To assist coping with job loss and all that strife
Ex-offenders and dropouts are welcome to attend
The goal is to help everyone to start a new life.

It's okay to be discouraged. It comes with the turf
The staff will make sure it doesn't become too great
They'll guide and help you, suggestions they'll offer
And before you know it much progress you'll make.

If Katrina's the worst to ever happen to me
Then CareerPoint is among the very best
My task, to seek work to get back on my feet
And the fine folks of CareerPoint saw to the rest.

CareerPoint means many things, but at top of the list
Are people who want to help others get a fresh start
You are real heroes and I just want to say, "God love
You all and I thank you from the bottom of my heart."

Jack O'Connor 2006
